

Dear Editor,

Please find attached our manuscript entitled “**The role of molecular properties of mononitrofluoranthenes to their mutagenic activity: insight from *ab initio* and DFT calculations**”, by Dragana Đorđević and me, to be considered for publication as an article in the special issue of the Journal of the Serbian Chemical Society devoted to 70<sup>th</sup> birthday of Academician Prof. Emeritus Miljenko Perić.

We have corrected our manuscript in accordance with the instructions given in the e-mail from the Journal Manager.

We would like to recommend the following reviewers for our article:

Professor Maja Gruden  
Faculty of Chemistry, University of Belgrade, Belgrade, Serbia  
[gmaja@chem.bg.ac.rs](mailto:gmaja@chem.bg.ac.rs)

Assistant Research Professor Matija Zlatar  
Department of Chemistry, Institute of Chemistry, Technology and Metallurgy, University of Belgrade, Belgrade, Serbia  
[matijaz@chem.bg.ac.rs](mailto:matijaz@chem.bg.ac.rs)

With best regards,  
Bojana Ostojić
